

The Water Cycle

The water cycle is the movement of water between the ocean, the atmosphere, land, and living things.

The processes involved in the water cycle are labeled with letters A–G in the diagram. Use the words below to identify each process and write it on the lines provided.

condensation	root uptake	seepage
evaporation	runoff	transpiration
precipitation		

- A _____ E _____
- B _____ F _____
- C _____ G _____
- D _____
